No. S. B. / 1093 OF 1907.

OFFICE OF THE SURGEON-GENERAL WITH THE GOVERNMENT OF BOMBAY.

From

SURGEON-GENERAL J. P. GREANY, M.D., I.M.S.,
Surgeon-General with the Government of Bombay ;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Poona, 11th June 1907.

Sir,

I have the honour to submit, for the information of Government, the Annual Report on the Civil Hospitals and Dispensaries of the Bombay Presidency for the year 1906.

2. On 1st January 1906, 675 institutions were in existence. During the year under review, 27 were newly opened, besides which, one in Sind and four in the Persian Gulf have now for the first time been brought on the returns, though opened some years back, and six were closed, leaving a total number of 701 institutions open and working at the end of the year 1906.

3. The total number of patients treated in the Institutions of classes I, III, and IV of Statement A appended to the Report was 2,295,714 against 2,176,392 in 1905, an increase of 119,322. Of these, 51,593 were in-door and 2,244,121 out-door patients as compared with 51,068 and 2,125,324 respectively in the previous year.

4. There was an increase of 842 and 883 in the number of in-door patients treated in the Gujarát and Sind Institutions respectively, whereas the Konkan, Deccan and Foreign Institutions show a decrease of 597, 501 and 102, respectively, as compared with the year 1905. Of the total in-door admissions, 32,398 were cured, 5,592 relieved, 4,855 discharged otherwise, and 5,641 died, the ratio of deaths per cent. to the total treated being 10·9 against 11·6 in the previous year. The daily average strength was 3,852·4, *viz.*, 2,926·3 males and 926·1 females, as compared with 2,765·5 (males 2,042·2 and females 723·3) in 1905. The number of beds available was 3,492 for males and 1,827 for females against 3,417 and 1,749, respectively, in the previous year.

5. An increase in the out-door attendance is contributed by the Sind Institutions to the extent of 76,915, by those in the Deccan 28,075, by those in Gujarát 9,095, and by foreign Institutions 4,619. The total daily average attendance was 20,568·7 (males 13,484·8 and females 7,083·9), as compared with 19,539·7 (males 12,586·9 and females 6,952·8) in 1905.

6. The admissions from small-pox fell from 2,362 in 1905 to 693 in 1906, but 3,545 cases of cholera were treated as compared with 303 in 1905. Regarding the increase, Institutions in the Konkan accounted for 1,031, those in the Deccan 2,042, Gujarát 48 and Sind 121 admissions. Dysentery contributed 40,923 cases, as compared with 32,947 in 1905. There was an increase of 61,652 cases of malarial fevers during the year under review, the returns from the Sind Institutions accounting for no less than 44,446, Konkan 7,505, Deccan 5,453 and Gujarát 4,727, the reasons given by the Civil Surgeons of Hyderabad and Sukkur, which Districts furnished the largest number, being that "the River Indus was very high during the inundation season, and the water-supply available was in excess of the requirements. Much of the country was flooded. As a result mosquitoes have swarmed everywhere and but little could be done to reduce their numbers. Moreover there has been no real cold weather to kill the mosquitoes. On all sides it is said that this has been the worst fever season, known for very many years." The ratio per cent. of these fevers to the total treated was 20·0 against 19·2 in 1905. The admissions from

venereal affections were fewer by 2,748. Of worms 139,484 cases were treated as compared with 152,135 in 1905. Leprosy accounted for 32,658 admissions, against 2,131 in the previous year. This apparent extraordinary increase was caused by the Superintendent of the Sholápur Leper Asylum (which Institution returned 30,852 cases as compared with 1,028 in 1905) counting each leper treated daily as a new patient. The daily average attendance of lepers at this asylum was 84·5. Tuberculous diseases accounted for 8,073 cases against 8,211 in the previous year. Rheumatic affections contributed 56,534 cases as compared with 58,108 in 1905. Respiratory affections numbered 130,417 cases, or 5,994 more than in the previous year. 50,140 cases of Diarrhœa were treated, as compared with 45,200 in the previous year. There were 218,392 cases of eye and 98,819 of ear diseases against 216,559 and 93,328, respectively, in 1905.

7. Of the total treated, 62·8 per cent. were Hindus, 29·3 Musalmans, 0·7 Europeans and Eurasians, and 7·2 of other castes, as compared with 64·5, 28·6, 0·7 and 6·2, respectively, in 1905.

8. The total number of surgical operations was 82,322, as compared with 82,113 in 1905. The patients operated on numbered 81,237, of whom 59,057 were cured, 956 relieved, 620 discharged otherwise, and 552 died, leaving 400 under treatment at the close of the year. Among the principal surgical operations, there were 700 amputations with 28 deaths as compared with 831 amputations and 53 deaths in 1905. The operations for cataract rose from 947 in 1905 to 1,238 in 1906. Laparotomy was resorted to in 59 cases, of which 20 ended fatally against 72 cases and 33 deaths in 1905. In 140 cases the liver was incised for abscesses with 30 deaths as compared with 303 cases and 80 deaths in the previous year. The operations for hernia numbered 135 with 13 deaths against 126 cases and 14 deaths in 1905. Whilst litholapaxies increased from 983 in 1905 to 1,170 in 1906, lithotomies and lithotrities showed a decrease of 111 and 22 over the previous year; and of the total, 60 ended fatally as compared with 56 in 1905.

9. The total income, exclusive of the cash balance, amounted to Rs. 15,83,407 against 14,95,593 in 1905. The amount received from Government was Rs. 8,40,948 as compared with 7,82,542 in the previous year. Rs. 1,80,181 were obtained from the Local Funds and Rs. 3,82,670 from the Municipal Funds against Rs. 1,52,645 and Rs. 3,93,895 respectively in 1905. The interest on invested capital yielded Rs. 32,679 as compared with Rs. 34,223 in the previous year. The sale of securities amounted to Rs. 4,900 against Rs. 4,200 in 1905. Subscriptions from Europeans and Natives show an increase of Rs. 21,351 over the previous year. The receipts from paying patients rose from Rs. 73,061 in 1905 to Rs. 76,437 in 1906. Miscellaneous receipts amounted to Rs. 24,364, as compared with Rs. 35,150 in 1905.

The total expenditure was Rs. 15,80,656. Deducting therefrom the sum of Rs. 1,02,048 remitted into the Treasury on account of hospital fees, sale-proceeds of unserviceable articles, &c., and of Rs. 25,700 invested during the year, the net cost was Rs. 14,52,908 and the cost per patient Re. 0-10-3 as compared with Rs. 13,81,365 and Re. 0-10-1 respectively in the previous year. The cost of each diet averaged Re. 0-2-9 against Re. 0-2-7 in 1905. Government paid Rs. 7,38,900, or 50·9 per cent. of the total expenditure, as compared with Rs. 680,415, or 49·3 per cent. in the previous year. The percentage of the total cost paid by Government for the State-Public Institutions was 81·4, for the Local and Municipal Fund Institutions 23·7 and for the Private-aided Institutions 27·2 against 81·6, 21·4 and 22·2, respectively in 1905. The cost per patient during the year 1906 in each of these classes was Rs. 1-12-4, Re. 0-6-4 and Re. 0-11-10, as compared with Rs. 1-11-0, Re. 0-6-5 and Re. 0-12-6 in 1905.

10. On 1st January 1906 there was a balance of invested capital in hand of Rs. 8,70,600, showing a discrepancy, as compared with the closing balance on 31st December 1905, of Rs. 6,000 due to the correct amounts of invested capital belonging to the Nassarwanji Manockji Petit Dispensary at Kheirgaon and to the Nandgaon Dispensary not being accounted for by the Hospital Assistants concerned in previous years. This, with Rs. 25,700 invested during the year, makes a total of Rs. 8,96,300. Securities worth Rs. 4,900 having

been sold and deposits amounting to Rs. 2,400 withdrawn, there remained at the close of the year Rs. 8,89,000.

11. The total number of patients treated in the State-Special, Railway and Private non-aided Institutions was 2,113,248 against 2,020,049 in 1905. Of these, 20,762 were in-door and 2,092,486 out-door patients, showing an increase of 4,148 and 89,051 respectively, over the year 1905. The increase was mainly contributed by the following diseases:—Malarial fevers (41,338), worms (9,309), dysentery (7,236), diseases of the ear (5,232), eye (4,219) and respiratory system (3,734), and bowel complaints (25,860).

12. During the year under review, the work of bringing the Hospitals, especially those in the mofussil, up to the modern standard of requirements has steadily been maintained, and before long it is expected all will be provided with the necessary equipment to enable Civil Surgeons to undertake operations heretofore not performed, and with the result of affording more efficient relief to those requiring surgical treatment.

Amongst the important buildings finished and under construction are the New Women's Hospital (St. George's), New wing, Cowasji Jehangir Ophthalmic Hospital, The Sir William Moore Operating Theatre, J. J. Hospital, Bombay, and a New European Hospital in connection with the David Sassoon Hospital, Poona, also new Hospitals are in course of completion at Karáchi, Ahmedabad, Belgaum and Alibág.

13. Three hospitals, *viz.*, St. George's, and the Goculdas Tejpal in Bombay and the Civil Hospital, Karáchi, have been provided with valuable sets of X-Ray apparatus, and the scheme for the training of medical officers and subordinates in the use of the X-Ray apparatus has afforded increased facilities for diagnostic purposes. As funds permit, it is hoped, similar sets of apparatus will be supplied to other important Institutions in up-country stations.

14. Since the issue of the Annual Report of last year, Government have accorded sanction to the scheme for a Central Nursing Service for the whole Presidency, including Sind and Aden; this is in course of formation and rules are being drawn up by a Sub-Committee. When fully established, the Association will supervise the training and supply of nurses on certain conditions to up-country Hospitals on the condition that local public bodies and the public generally defray half the cost of the maintenance of the number required and supplied.

15. During the past touring season, all the Government Medical Institutions in Bombay City and, with a few exceptions, the Civil Hospitals in the mofussil were inspected, and in my opinion the work done at these institutions has been very satisfactory throughout—both from a professional and administrative point of view—and I have much pleasure in bearing testimony to it.

I have the honour to be,

Sir,

Your most obedient Servant,

J. P. GREANY, M.D.,

Surgeon-General, I.M.S.,

Surgeon-General with the Government of Bombay.

APPENDIX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT A.

Showing the number of Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1906.

[Population of the Province—25,424,235.]

Class of Dispensary.	Number open on 31st December 1905.	Number opened during the year 1906.	Number closed during the year 1906.	Number open on the last day of the year 1906.	Remarks.
1	2	3	4	5	6
I.—State—Public ...	44	(*a*) 4	...	48	(*a*) Lingah, Mahommerah, Koweit and Bandar Abbas (Persian Gulf) shown for the first time.
II.—State—Special—					
(i) Police ...	3	...	...	3	
(ii) Forests and Surveys ...	1	...	...	1	
(iii) Canals ...	1	...	...	1	
(iv) Others ...	12	(*b*) 1	...	13	(*b*) The David Sassoon Industial and Reformatory Institution, Bombay, transferred from class V.
III.—Local and Municipal Funds	247	(*c*) 4	...	251	(*c*) Victoria Bandar Dispy. and Colaba Plague Hospital (Bombay City) and Johi (Lárkhána District) newly opened, and Mirpur Mathello (Sukkur District) transferred from class IV.
IV—Private—Aided ...	10	(*d*) 1	(*e*) 1	10	(*d*) Hiranand Leper Asylum, Mango Pir, Karáchi, shown for the first time. (*e*) Mirpur Mathello transferred to class III.
V.—Private—Non-aided ...	311	(*f*) 22	(*g*) 5	328	(*f*) 11 in the Thána District, 3 in Pálanpur State, 2 each in Sáwantvádi and Káthiáwár States, and 1 each in Ratnágiri and Ahmedabad Districts and Surat and Southern Mahratta Agency's. (*g*) 2 in Ahmedabad District and 1 each in Pálanpur and Káthiáwár Agencies, and 1 transferred to class II (IV).
VI.—Railways	46	(*h*) 2	(*i*) 2	46	(*h*) Matunga and Petlad. (*i*) Sewalia and Bhávnagar Terminus.
Total ...	675	34	8	701	

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as 'State', when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—'Public' are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries, whether maintained by state railways or others.
